

Figure 5.1
A plane-faced object with trihedral vertices

Figure 5.2
An anomalous object

"Arrow"

"Y"

"Tee"

"ElI"

Figure 5.3

Positive (✓) and negative (x) links (after Guzman 1968)

Figure 5.4
A block with a hole

Figure 5.5

A scene corresponding to a wrong analysis of the previous picture

a.

b.

Figure 5.6

Transparent cuboids viewed from (a) general and (b) nongeneral position

Figure 5.7

Image of a truncated cone lit from nongeneral position along its axis

Figure 5.8
Huffman/Clowes junction labels

Figure 5.9
A block with a hole, labeled

Figure 5.10
A pyramid

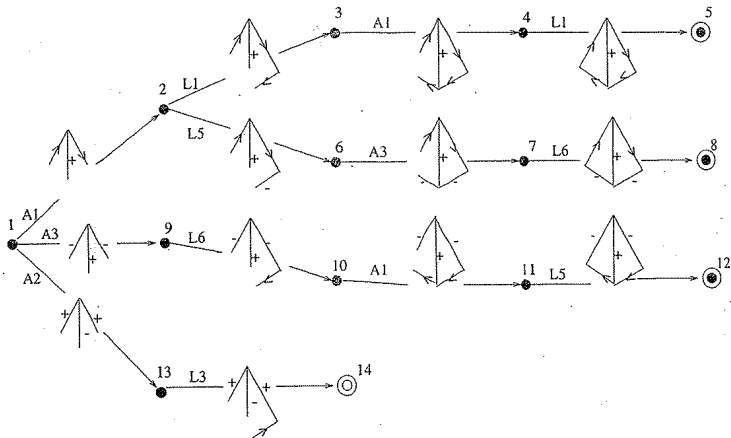

Figure 5.11
Backtracking search

Figure 5.12
A picture involving disconnected subpictures

Figure 5.13
A picture with subpictures connected by T-junctions

Figure 5.14
AC-3 applied to the simple pyramid: State 0

Figure 5.15

AC-3 applied to the simple pyramid: State 2

Figure 5.16
AC-3 applied to the simple pyramid: State3

Figure 5.17
AC-3 applied to the simple pyramid: State 4

Figure 5.18
AC-3 applied to the simple pyramid: Final state

Figure 5.19

An unambiguous picture including shadows and cracks

Figure 5.20
A more complex unambiguous picture

Figure 5.21

Subpicture corresponding to a binary variable (adapted from Kirousis and Papadimitriou 1988)

Figure 5.22

Subpicture corresponding to a clause (adapted from Kirousis and Papadimitriou 1988)

Figure 5.23

The propositional variable binder (adapted from Kirousis and Papadimitriou 1988)

Figure 5.24
An ambiguous curved object
